

7th Session of the Meeting of the Parties

Brussels, Belgium, 15 – 17 September 2014

Resolution 7.2

Amendment of the Annex to the Agreement

The Meeting of the Parties to the Agreement on the Conservation of Populations of European Bats (hereafter "the Agreement"),

Recalling Resolution No. 7 adopted at its Third Session (Bristol, July 2000), amending the Agreement and incorporating an Annex of bat species occurring in Europe to which the Agreement applies;

Recognising that there will be the need to amend the Annex from time to time in the light of recent research results;

Further recognising that the names of bat species included in the Annex should conform to the rules of nomenclature laid down by the International Commission on Zoological Nomenclature;

Noting that IUCN – The World Conservation Union as well as the Convention on the Conservation of Migratory Species of Wild Animals (CMS) identify *Mammal Species of the World* by Wilson and Reeder (Smithsonian Institution Press, Washington; John Hopkins University Press, Baltimore) as the standard list of mammals;

Acknowledges the establishment of an Advisory Panel of specialists to consider potential changes to the Annex;

Agrees to adopt the following changes to the Annex, on the recommendation of the Advisory Panel; and

Notes other potential changes to the Annex, but which are rejected or deferred pending the availability of further information;

Decides to:

1. Accept the addition of *Miniopterus pallidus* Thomas, 1907 to the list of species of the Annex;
2. Accept that the Family Miniopteridae should be recognised for the genus *Miniopterus*;
3. Remove parentheses from around the author and date for the species *Myotis escaleraei* Cabrera, 1904; and

Adopts the revised list of species for the Annex to the Agreement as attached to this Resolution.
